

ITBU Cybersecurity Labs, Lab 13, Understanding Buffer Overflows

Network Development Group

1 Readings

Review the following tools and write a *brief* description of the capabilities of each.

1. <https://www.thegeekstuff.com/2013/06/buffer-overflow/>

2 Lab Assignment

Complete Lab 13 in Ethical Hacking.

3 Instructions

Take screenshots after the following steps. You will include these in your deliverable. Please make sure that your images include your (unique) reservation number and lab name, as shown in Figure 1.

- Part 1, Step 6 (showing your code)
- Part 2, Step 5
- Part 3, Step 5 Copy the code in `vuln1.c` to a new file named `fixed_vuln1.c` and make all changes to the second file. Don't forget to compile and run the second file.
- Part 3, Step 11
- Try printing the `buffer` array up to 20 places. What happens?

4 Writeup

Conclude the assignment with a brief reflection (two or three paragraphs) of your evaluation of the usefulness of the tools, with examples of how you could use them in pursuit of either an attack or a defense of an asset.

5 Deliverable

Your deliverable consists of a document (Microsoft Word, PDF, or similar) with your description of the tools, screenshots, and reflection. Your deliverable *must include* your name, course number, lab number or name, and the date of completion. Submit your deliverable through Canvas.
